

Congratulations 2011 Masters Awards Winners!

Each year, the MBI recognition programs are sought after by the best in the Iowa's commercial construction industry. The awards and recognition programs celebrate the success of MBI member companies and spotlight individual and company-wide accomplishments.

The awards were an integral part of this year's Annual Convention and an outstanding opportunity to celebrate people and projects within our industry. This year's special guests and keynote presenter for The Masters Awards Luncheon was Rocky Bleier. In addition to the announcement of the prestigious 2011 Masters Awards, Rocky gave a rousing keynote describing his reactions to some of the big pressure moments of his life and career and how he responded for a successful outcome.
